The letter has already been published.

A resolution, as follows, was unanimously adopted by the committee on finance April 6, 1886, in relation to this and all similar letters to the foregoing:

Reserved, That the letters of the Secretary of the Treasury to the committee on finance dated March 16, 1886, or subsequently, in relation to the suspension of collectors of internal revenue, should be received and held as houset declarations made in good faith that there are no charges or papers on file in the department reflecting in any manner against their moral or official conduct or character, and on this statement of facts, and the fact that there is no faced term attached to the office of collector of internal revenue, the committee recommends the confirmation of Mr. Blank.

internal revenue, the committee recommends the confirmation of Mr. Blank.

The entire list of internal revenue colvicetors are understood to have been reported to the Senete, and the above report is made in regard to a majority of them. There is understood to be a variation in its form in respect to cases where the suspended officials were ex-soldiers, and some incidental and inconclusive debate over the Ohio cases of this character took place to-day. A few of the collectors who had been reported from the finance committee prior to the receipt of Mr. Manning's letter were to-day recommitted in order that the outgoing men might receive clean bills of health, and be started anew in life abreast of the others. Senator Morgan gave notice that he would call up the Hawailan treaty to-day. Senator Van Wyck offered a resolution that it be considered with open doors.

Senator Hoar, without objecting to the present consideration of the resolution, expressed his disapproval of the general principle of considering either treatles or nominations in open session. He intimated that he would take occasion to make a speech on the subject in open session.

that he would take occasion to make a speech on the subject in open ession.

Senator Butler said he was disgusted with the course of procedure in the Senate on this subject. It appeared that when any one of a certain half dozen senators wanted the doors open they were opened, but this privilege was rigidly denied to all other senators. Here was a purely commercial matter deeply affecting the business interests and welfare of the people. It was not even a new treaty which was to be considered, but a proposition to extend an old one. It was already, and had been for years, before the public. What earthly reason could be given for secreey in such a case?

case?
Senator Van Wyck said he believed in the fullest publicity for commercial treaties, and he called attention to the fact that he had introduced a similar resolution when the Mexican treaty was taken up. But he did not wish to discuss the subject at this time, and asked that the resolution lie over till to-day. Thereupon the Senate adjourned.

A PRETTY WOMAN IN TROUBLE. She Gets Register Rosecrans to Cash a Check, and Is Arrested Because It Is

paced up and down the office of the fifth precinct station last night. A red wing showed off the jaunty hat she wore, and a neatly-made brown dress fitted her well neatly-made brown dress fitted her well shaped figure closely. She was a prisoner, and gave the name of Mrs. L. L. Foster, and the charge against her was for passing a bogus check for \$30 on Gen. W. S. Rosecrans, register of the treasury. She was arrested at the white house by Lieut. Arnold and Detective Carter. She told the officers that she was from New York, and came on here to prosecute a claim before the Alabama court of claims. Her money gave out and she was reduced to poverty. In a moment of sad despair she drew up the check and imposed it upon Gen. Rosecrans. She felt sorry for her act, but consoled herself with the belief at the time she worte self with the belief at the time she wrote the check that she would sooner or later re-fund the money. She is said to be well con-nected in New York. The woman is said to have stopped at Wormley's and other hotels, and to have left unpaid bills.

The Land Laws a Parce.

He says that @per cent. of the homesteed and pre-campion entries in Minne-sota are made as a pretext for obtaining the timber on the land with no intention of per-manent settlement.

A rather singular circular letter has been received by members of Congress from New York and Pennsylvania. It is from Miss Addle G. Beaver, of Waynesboro, Pa, saying: I have started a sewing machine fund for I have started a sewing machine fund for my own benefit, contributions to which I shall solicit only from members of the United States Congress. A contribution of from 10 to 20 cents in postage stamps by each member would enable me to congratulate myself on receiving the amount needed. I am, therefore, led to write you personally and in the best way how, to suggest that when you find yourself alone with your conscience, in your best humor and feel most charitably disposed, to consider the import of my communication, and let me hear from you accordingly. However, in asking you for a contribution to the fund in point, I would not have you infer that I am unable to purchase myself a sewing machine. Simply this: I would like to have the exceptional honor of saying. "I have a sewing machine obtained by contributions from members of congress, in other works, a congressional sewing machine." ng machine."

Miss Beaver, who is said to be a relative of the Beaver, the Cameron candidate for governor in Fennsylvania when Gov. Pattison was lected, adds as a postscript that Mr. Randall, een. Bingham and ten others have already contributed.

Unnecessary Violence,
For which outraged nature exacts heavy penaities, is done to the bowels by persons who
with drastic, drenching purgatives make war
on those organs in order to relieve their constriction. Constipation is not one of those
despreate discases that require desperate
remedies. In fact it is not a disease at all,
but the incomplete discharge of a function, to
the healthful renewal of which Hostetier's
Stomach litters is far better adapted than
drugs, whose action is excessive, and consequently debilitating and injurious. Disorder
of the liver, contamination of the blood, with
bile, sick headachies, and dyspeptic symptoms
are the attendants of costweness, and are
likewise remedied by the litters. Its action is
not limited to the relieving of the bowels
naturally and without pain. Used with persistence, and as directed, it perpetuates regularity in the habit of body, and in the operations of the digestive organs and tiver. Fever
and ague, rheumatism, and kidney troubles
are prevented and cured by it.

New York, April 14.—The stock market has en very duli to-day, with prices generally rm, excepting after midday, when a raid was made upon a few stocks, including Union Pa-citic, Pacific Mail, and Western Union. The strack had no effect upon the rest of the liss, and later in the day a part of the losses estaband later in the day a part of the losses established after midday in the stocks mentioned were recovered. The raid was unaccompanied by any news of a character to affect the price of those stocks except in the case of Western Union, regarding which there was an unconfirmed report that the company had been served with a protest against the payment of a scrip dividend to-morrow.

The market was practically duil late in the afternoon, and closed duil and strong at 3½ to ½ per cent, different from the final quotations last evening with more advances than decilizes among the old favorite stocks. Exceptions are a decline of 5½ in Northwestern and ½ in Pacific Mail, while New York Central and Reading are up ½ each, and union Pacific shows a gain of 5½. The low priced fancies came in for more than their unal share, of attention to-day. The frequisar and wide suctuations were confined almost entirely to the low priced fancies mentioned, the old favorites suctuating generally less than 1 per cent, throughout the day. The involvement of 20,000 shares, and except 8t, Paul and Union Pacific, which jointly contributed 55,500 shares, no stock on the list was dealt in to the extent of 20,000 shares.

For seven years I suffered with a cancer on my face. Eight months ago a friend recommended the man effort to procure it. In this I was successful, and began its use. The influence of the medicine as first was to somewhat aggravate the sone, but soon the inflammation was allayed, and I began to improve after the first few bottles. My general health has greatly improved. I am stronger, and able to do any kind of work. The cancer on my face began to decrease and theuther to heal, until there is inct a vestige of it left—only a little scar marks the place.

I have had a cancer on my face for some years, extending from one cheek bone across the nose to the other. It has given me a great deal of pain, at times burning and itching to such an extent that it was almost unbearable. I commenced using Saiff's Specific in May, 1885, and have used eight bottles. It has given the greatest relief by removing the inflammation and restoring my general health.

The above is the cut of a newly-invented stamping Machine, recently patented. It is a very valuable invention. This machine is simple and remarkable for its ingonuty and plainness, working on "rotary motion." The "patent roller" is adjusted to any pattern. It is composed of four pieces of wood; either can be removed without disturbing the other, each being fastened separate at the end with one screw. The "lak fountain" at the top, just above the felt roller, gives the proper flow of mx by simply loosening the top screw, and ceases by tightening it. Fatrons can be accommodated with their stamping work while studing at the counter, as you disturb nothing but the "pattern roller," and in a minute the stamping done. Any width goods may be stamped with this machine, and it will be received by the stamping world with unbounded satisfaction. It is a grand success in expediting labor. It can be used as an attachment in connection with sewing machines. Paties interested can obtain further information by addressing PATENT, Republican Office.
